Aviation Facilities.....	10
Emergency Services.....	10
Hazard Identification, Location, Risk.....	10
Wildfire Fuels in Power County	11
Power County Weather	11
Drought	11
Power County Topography	12
Power County Wildland/Urban Interface (WUI).....	12
Hazard Location.....	12
Other Hazard Issues	13
Values at Risk	15
Hazard Prioritization.....	16
Mitigation Goals, Strategy And Implementation.....	17
Mitigation Strategy	20
Goal 1: Provide additional communication capability for Power County dispatchers, Fire departments and residents.....	20
Goal 2: Provide additional sources of water at strategic locations throughout Power County and means of supplementing or replacing service in the event of disruption.	21
Goal 3: Provide Power County VFDs with facility improvements and equipment as identified in the Three Rivers RC&D Survey of Volunteer Fire Departments and improve coverage in areas (i.e. Arbon Valley) where facilities and equipment are currently lacking.	22
Goal 4: Provide complete and/or coordinated fire protection coverage for all residents of Power County.....	24
Goal 5: Reduce identified hazardous fuels buildup in high-risk areas on a countywide scale.....	25
Goal 6: Create and implement defensible space standards for homeowners and developments and utilize standard Fire Protection Guidelines for Residential Development In the Wildland/Urban Interface for subdivisions as identified in	

NFPA 1144, <i>Standard for Protection of Life and Property from Wildfire, 2002 edition</i>	28
Goal 7: Provide Power County VFDs with required training, communications, PPE, apparatus, facility improvements and equipment as identified in the Three Rivers RC&D Survey of Volunteer Fire Departments.....	28
Goal 8: Gain community or development participation in firewise activities including education and information distribution.....	30
Goal 9: Develop County Fire-Emergency Mobilization Plan, and County/Interagency Communications Plan with Landowners and Cooperators in Power County and develop subdivision/homeowners wildfire and other emergency operations plan(s) as requested.	32
Goal 10: Apply fuels treatment – hand, mechanical, prescribed fire or combination of treatments to reduce fuels loads on CRP land.	33
Goal 11: Develop a comprehensive inventory of homes and provide the inventory to dispatchers and VFDs in times of emergency response.....	34
Existing Mitigation Programs And Resources.....	36
Local Programs	36
County Codes.....	36
State (IDL) Programs.....	36
Federal Programs	36
National Wildland/Urban Interface Fire Protection Program.....	37
Prescribed Burning/Mechanical/Biological Treatment.....	37
Firewise.....	37
Wildfire Mitigation Plan Maintenance	38
